

# Maintenance-CAPE®

---

**Enables contamination-free  
maintenance work in a  
cleanroom.**

# Enables contamination-free maintenance work.

## What is new and what is the benefit?

- Innovative maintenance system for stationary cleanrooms
- Spatial delimitation and removal of contaminations caused by maintenance work or repairs
- Ultraclean environment is not contaminated by particles or chemical contaminants
- Time-consuming and costly cleaning is no longer necessary

## Features of the »Maintenance-CAPE®«

- Textile maintenance tent, can be realised up to clean room classes ISO 3
- Integration into existing systems by installing a rail system
- Flexible use due to movable frame
- Easy storage due to removable walls
- Variable sizes possible
- Individual, customized solutions
