

FastBuild-CAPE®

**Creation of an ultraclean
environment in the shortest
possible time.**

Ultraclean environments in the shortest possible time.

What is new and what is the benefit?

- The new "FastBuild-CAPE®" is one of the fastest operable cleanrooms worldwide
- The installation can be done by one person
- Ready for use within a few minutes

Prototypical construction of a »FastBuild-CAPE®«

Features of the »FastBuild-CAPE®«

- Flow-through, textile clean room tent, realizable up to clean room class ISO 1
- Variable sizes possible
- Simple construction without special aids, a conventional stationary air pump is sufficient
- No solid base necessary for assembly
- Setup time of the 2 m x 2 m version max. 2 minutes
- Easy to clean and store
- More cost-effective (factor 10) than a conventional cleanroom
- Very low weight and packing size
